

AtlasOA in one page

AtlasOA is the outcomes assessment and accreditation platform built for technical colleges, community colleges, and specialized institutions. It replaces spreadsheets, shared drives, and one-off survey tools with a single workspace where programs define outcomes, collect evidence, run assessment cycles, and produce accreditor-ready reports.

WHAT ATLASOA DOES

- Maps every program outcome to the standards of your accreditor with pre-built crosswalks for NECHE, HLC, SACSCOC, WASC, ACCSC, and Council on Occupational Education.
- Collects evidence automatically from your LMS, SIS, and program review documents.
- Runs full assessment cycles with rubrics, scoring, and closing-the-loop documentation.
- Produces accreditation reports, annual reports, and program review packets on demand.
- Runs on-premise so your evidence and student data never leave your network.

WHO IT IS FOR

Deans, department chairs, assessment coordinators, and accreditation liaisons at institutions that need to produce real, defensible outcomes data on a regular cycle and are tired of reinventing the workflow every year.

PRICING (FOUNDER YEAR 2 RATES, LOCKED FOREVER)

Tier	Profile	Rate
Standard	Single-campus	\$1,750
Premium	Multi-program	\$4,250
Ultimate	Multi-campus system	\$6,250
