

Partner with us on the future of accreditation and outcomes work.

AtlasOA is the outcomes assessment and accreditation platform for technical colleges, community colleges, and specialized institutions. Our founder program gives forward-thinking institutions a way to shape the product while locking in a permanent rate.

YOU PILOT	YEAR 1 FREE	FREE ONBOARDING	FOUNDER RATE
Run AtlasOA on your campus server for a full academic year. Give us feedback. Break things. Tell us what accreditation cycles actually need.	The entire first year is free for founder partners. No license fee, no per-program fee. You only pay hardware if you need it.	We handle install, program import, and mapping to your accreditor's standards at no charge (normally \$1,500). A full set of written training materials is included.	Lock in your founder rate forever. Whatever tier you start at in Year 2, that is your price for life.

WHAT YOU GET IN YEAR 1

- Full AtlasOA platform with outcomes mapping, evidence collection, assessment cycles, and accreditation reporting.
- Pre-built crosswalks to major accreditors including NECHE, HLC, SACSCOC, WASC, ACCSC, and Council on Occupational Education.
- On-premise install on a server you own, with all evidence files and student data staying on your network.
- Direct import from your existing program review documents and outcomes libraries.
- A full library of written training materials covering every role: deans, department chairs, assessment coordinators, and faculty leads.
- Direct line to the founder for feature requests.

WHAT WE ASK IN RETURN

- Use AtlasOA for a full year of real assessment work.
- Share honest feedback on workflows, terminology, and reporting.
- Let us share your results as a case study (anonymized or named, your choice).
- Introduce us to one or two peer institutions when you are ready to recommend us.
